Optional Trip Insurance

- **Trip Cancellation** - protects you before your trip begins. If you need to cancel your trip due to a covered risk, this insurance reimburses your non-refundable prepaid travel costs. The price is based on the total sum insured selected (i.e. your total trip costs you want insured).
- **Trip Interruption** - protects you once your trip has begun. If an emergency occurs during your trip, this insurance reimburses your non-refundable prepaid travel costs and the expenses to return home. Add this coverage to your policy **for as little as \$34** (price is based on the total sum insured selected and is subject to change).
- **Baggage Coverage** - protects your personal belongings, up to \$1,500, in the event that they are lost, stolen, or damaged while travelling, or while in any hotel or other building, en route anywhere in the world, on land or water or in the air.

Definitions

Defined terms appear in *italics* in this brochure:

Effective date means the date on which coverage begins. For top ups this is 12:01 am on the day after the termination of your prior coverage. For Multi-trip Plans, the *effective date* is the date of departure of each covered trip during the period of coverage of this policy.

Heart Condition means myocardial infarction, heart attack, arrhythmia, atrial fibrillation, heart murmur, chest pain or angina, arteriosclerosis, carotid artery occlusion, congestive heart failure, cardiac by-pass or any other kind of cardiac surgery, angioplasty or stent, use of pacemaker or defibrillator, congenital heart defect, or any other condition relating to the heart or cardiovascular system.

Hospitalized or hospitalization means being admitted to a hospital as an in-patient. *Hospitalized* does not include prescheduled tests not requiring any further immediate *treatment* in the hospital.

Medical examination (Physical) means a periodic consultation with a *physician* either virtually or in-person scheduled in advance with the purpose of general health monitoring which may include routine medical tests and which is not solely related to any specific symptom, illness, condition or disease.

Medical condition means an irregularity in your health that required or requires medical advice, consultation, investigation, *treatment*, care, service or diagnosis by a *physician*.

Minor infection means an infection that ends 30 days prior to the *effective date* of coverage and does not require: use of medication for a period greater than 15 days; more than one follow-up visit to a *physician*; *hospitalization*; surgical intervention; or, consultation with a medical specialist. A chronic infection or the complication of a chronic infection is not a *minor infection*.

Pre-existing medical condition means a *medical condition*, other than a *minor infection*, for which *treatment* has been taken or received, or which exhibited symptoms, prior to your *effective date* and within the period specified for the Plan for which you qualify and includes any medically recognized complication or recurrence of a *medical condition*.

Stable means the *medical condition* is not worsening, nor has there been any referral to a specialist, nor has there been any alteration or change in the usage or dosage of any medication for the *medical condition*, nor any *treatment*, prescribed or recommended by a physician or received within the period specified for the Plan for which you qualify, prior to the *effective date*. If you require a routine adjustment to the dosage of your prescription for Coumadin, warfarin or insulin (unless it is newly prescribed or stopped) to ensure correct blood levels are maintained, such a change is not considered an alteration in medication, provided the condition remains unchanged. (Note: If you have declined or delayed recommended *treatment*, diagnostic testing, or prescription medication in the two years prior to the date medical care is required under this policy, that *medical condition* or any related *medical condition* is not considered *stable*.)

Treat, Treated or Treatment means a medical, therapeutic or diagnostic procedure prescribed (other than routine monitoring), performed or recommended by a *physician*, including but not limited to prescribed medication, investigative testing and surgery. Do not count Aspirin or Entrophen as *treatment*.
